UNIVERSITY of WASHINGTON

College of the
Environment

Recognized as one of the best in the nation, opening the doors
to the sea, from the depths of the earth to the splendor of
the sky, the College is a premier destination
of environmental research, education, and education. In
collaborating with industry, government, and the public, we are
committed to creating "Smart Solutions" designed to best protect
our planet's natural resources and to advance the sustainable development
of the global community of the future.
